

# Intelligent Human Resource and Workforce Platform

---

An AI-powered platform that unifies recruitment, employee management, performance, skills, workforce analytics, and AI-assisted decision making.

Team 3 — Supervisor: Ms Melinda

# Problem Statement

Traditional HR management faces critical challenges that slow progress and impact performance.

Manual, time-consuming HR processes

Dispersed employee and candidate data

Difficulty identifying suitable candidates quickly

Limited visibility into employee skills

Delayed performance analysis and feedback

Complex workforce planning

Slow and inefficient HR decisions

# Proposed Solution

A unified, intelligent platform that connects people, processes, and insights across the entire employee lifecycle.

# AI-Powered Features

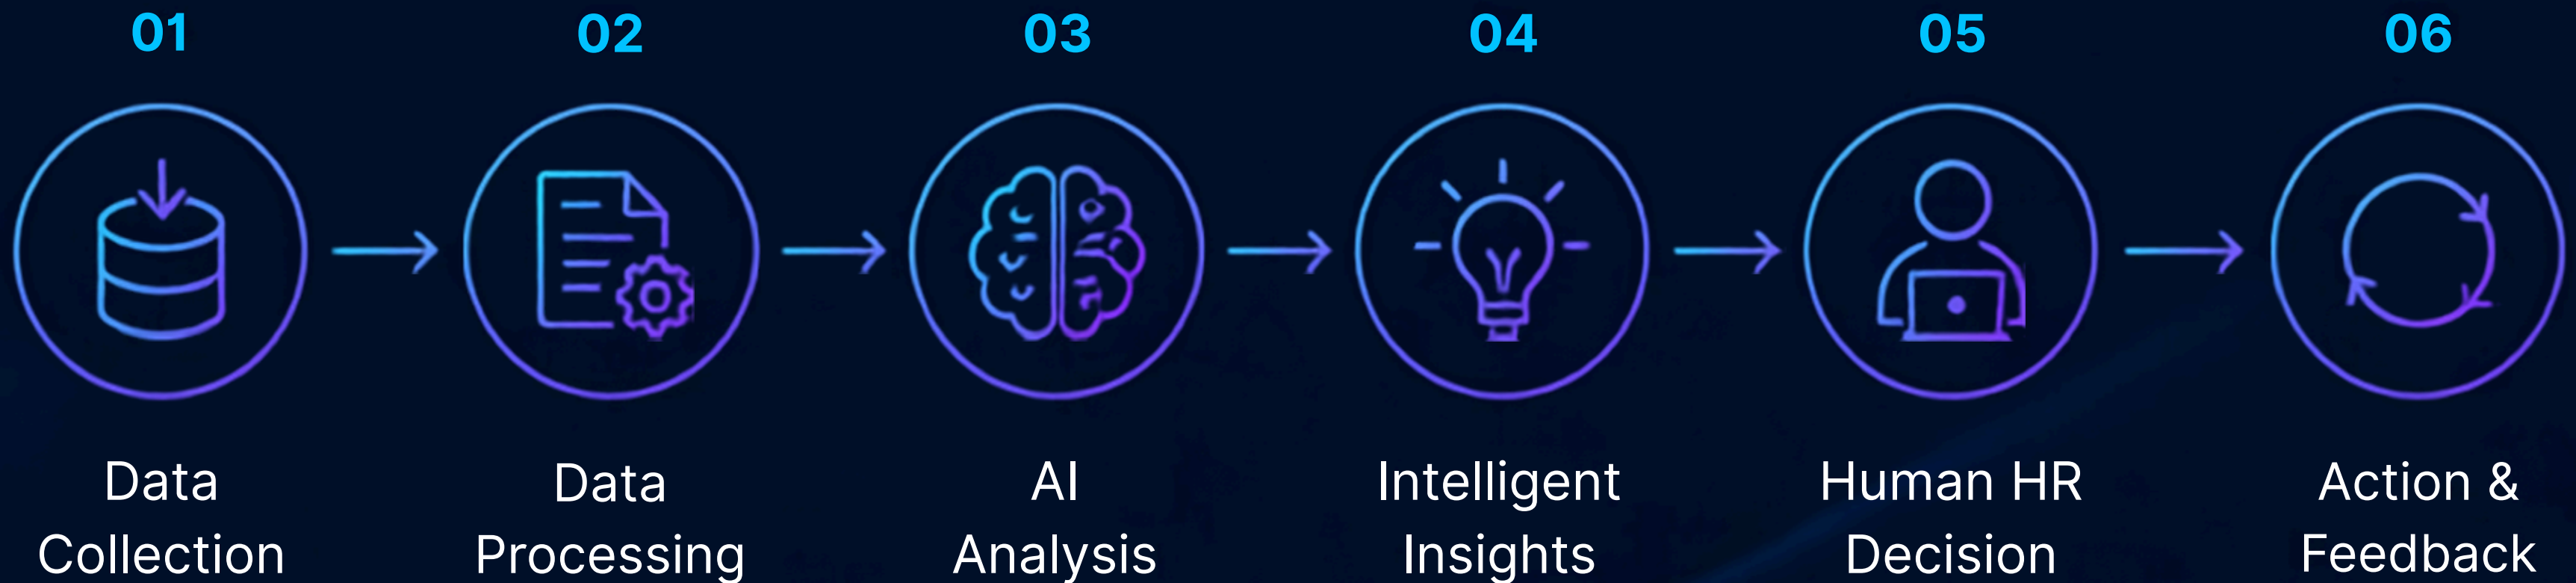

|                                                                                                          |                                                                                                            |                                                                                                                |                                                                                                            |

# System Architecture

# System Workflow

**AI recommends**

**Humans review**

**Organizations decide**

# Technology Stack & Benefits

01

Frontend

React.js, HTML, CSS, JavaScript

02

Backend

Java/Spring Boot or Node.js

03

Databases

MongoDB, MySQL

04

AI

Python, Machine Learning, NLP

05

Tools

VS Code, Git/GitHub, Postman

Faster recruitment cycles

Reduced HR workload

Enhanced employee insights

Data-driven HR decisions

Personalized employee development

Improved workforce planning

# Expected Outcomes & Future Scope

---

AI HR Assistant for real-time support

Predictive workforce analytics

Personalized career path recommendations

Enterprise system integration

Responsible and explainable AI practices

**Human Intelligence + Artificial Intelligence**  
**= Smarter Workforce Decisions**

# THANK YOU
